

As subsidiary of the international engineering enterprise Langley Holdings plc Piller provides client-specific system solution: high-quality energy conditioning, uninterruptible power supply as well as frequency modulation. We have established as the first ones address in the market particularly with the customers, who are absolutely dependent on power – like banks, airports or hospitals.

In order to strengthen our service business in the Netherlands, we are looking to fill the following vacancy:

## Service Engineer (m/f/d)

### **Your role:**

- Commission, maintain and repair Piller systems mainly in the Benelux area
- Implementation of updates and modifications to the systems
- Occasional site management during service jobs
- Create timely and detailed service reports
- Cooperate with technical team and share information across the organisation
- Providing advice and trouble-shooting for our customers
- Build positive relationships with customers

### **Our requirements:**

- Educated as an electronic or electrical engineer
- Professional experience in service of electronic regulated units and systems
- Dutch speaking and good knowledge of the English language (and/or German)
- Good knowledge in MS Office and PC handling
- Willingness to travel abroad on demand
- Participation in rotating on-call duty
- Customer-focussed and high degree of team spirit and flexibility
- Independent and goal-oriented and responsible working style
- Your residence should be in the Netherlands

### **Piller offers it's employees**

a modern working area, a host of opportunities for further development and collaboration in a friendly and inspired Team. We assist our employees with the balancing act between private life and the exciting challenges at Piller. In addition to your tools and measuring instruments, we also provide you with a company car which can also be taken for private use, laptop and mobile phone. There is the possibility for occasional home office work.

Do you have enough power? If you would like to join our team, please submit your application and CV by e-mail mentioned below.

All applications will be treated as strictly confidential.
