### **About Piller**

Piller power technology protects the world's critical infrastructure.

Established in 1909, Piller Power Systems is Europe's leading producer of uninterruptible power supply (UPS) systems for mission-critical power applications such as data centres and semiconductor manufacturing. Piller also manufactures ground power systems for civil and military airports and on-board electrical systems for naval vessels. Piller UK Limited was the first subsidiary to be established by Piller GmbH back in 1975.

Piller is part of Langley Holdings Power Solutions Division focused on the development of hybrid-renewable microgrids in collaboration with Bergen Engines AS and Marelli Motori Srl, all Langley subsidiaries.
